***We work great with both Pro and Super to create fantastic package opportunities no one else provides!***

**Both Michael and Roger at the Country Club at Mirasol worked together with Tom Eubank of Golf Sign & Design to create customized products for all of their golf course needs!**

***See what they have to say below!***

## Testimonials

**COUNTRY CLUB at MIRASOL, Palm Bch Gardens, FL**  
*Golf Sign and Design, led by Tom Eubank, has completely separated itself from other vendors and suppliers in this space; from scorecards, course measurement, tee and fairway yardage plates, sprinkler yardage caps and even drone video hole flyovers. Golf Sign and Design will meet or exceed your expectations, with innovative products and technology.*

**Michael Thomas, Director of Golf Maintenance**

**COUNTRY CLUB at MIRASOL, Palm Bch Gardens, FL**  
*It has been great working with Golf Sign and Design for the past few years. Tom Eubank is very professional and knowledgeable and his company has always given us terrific service. We currently use quite a few of their products and I would highly recommend them for any of your course marketing or signage needs.*

**ROGER KENNEDY, Director of Golf**

**RIVIERA COUNTRY CLUB, Pacific Palisades, CA**  
*The Golf Sign Company (& Tom Eubank) has been a great resource in developing a 3D Yardage Guide that our customers desire. They have also created an economical way for me to keep the product fresh each year!*

**TODD YOSHITAKE, Director of Golf**

STONEBRIDGE GOLF & CC, Boca Raton, FL

The grand opening was a great success! Everyone was excited to play the new back nine. Tee markers, PPG markers as well as the directional signs and granite signs were well received. The yardage guides were a great give away for the members at the grand re-opening. Thank you for all your hard work to make this an enjoyable grand opening for our Stonebridge members!

ROBERT JACKS, Golf Course Superintendent

# Cast Bronze Signs

# Cast Bronze Signs

**Cast Bronze** has long been the classic option for the Discerning golf course. We have both the design skills and the casting warehouse to make your signs unique, attractive and at great pricing. WHY? Because we work on lower margins and intend to earn your business for life. We would rather count on a long-term relationship as your sign and marketing provider than to try and capitalize on a one time sale.

We provide the best quality and price combination of any US company and all product is made here!

# Cast Aluminum Signs

## Shapes and Custom Patterns

We can create any shape or pattern to fit your needs. We also can add your golf hole in either overhead version or in a 3D model of the hole.

No job is too difficult or too small.

# Cast Aluminum Signs

**Cast Aluminum** is a great option that will save you money versus bronze. Aluminum is cast the identical way bronze is but is much lighter and of course has a totally different look. However, it is just as durable and may be the best fit for your club.

**Face Painted Aluminum** allows you to capitalize on the lower cost of aluminum while enjoying the look of bronze. We simply roll the raised areas in a gold paint and you have a classic look without the cost. You could expect to refinish these types of signs every 6-8 years.

Dozens of custom colors available!

# Posts, Bases & Finials

## Round Post Caps

Trophy Golf Ball Pine Cone

Other Finials May Be Available for Custom Order!

## Square Post Caps

Ball Cap or Pyramid. Flat Cap not shown.

**Posts** - Round or fluted - 3" or 4" diameter. Square - 2", 3", 4" diameter. 6" is a custom order.

## Decorative Base - Optional

One piece casting 25" tall for 3" round or fluted posts are in stock. Base for a 4" round post is a custom order.

All posts, bases & finials are powder coated in a variety of colors.

Black posts and bases are in stock!

# Recycled Posts & Mounting

Brazilian Walnut Antique Mahogany Coastal Gray

The three above colors are in a multi-tone and wood grain finish for a timeless classic look with zero maintenance.

Black Brown Caramel Sand Green

Recycled lumber is available in these and often other custom colors. In stock colors are black and brown in standard colors above. Caramel, Sand and Green are usually only a two week order time.

We use only the finest recycled plastic in our lumber and it is dense with no pitting, cracking, or breaking. Posts are structural and able to last many years with little or no maintenance.

# Grand Entrance Signs

# Monument Signs

There is only one first impression and it needs to count. We offer a wide variety of materials to make your entrance sign spectacular. We offer actual stone work, cast metal signs, High Density Urethane Signs, High Pressure Laminate Signs and the worlds number one high density sign foam monuments.

Choose the materials and we will work with you for a creative sign to fit any budget you may have. We offer complete design service and even installation!

The sign for Admirals Walk below was made of one solid piece of HDU and shipped ready for a simple installation. Save time, money and easy installs with our signs.

# Directional Signs

# Informational Signs

# Brick and Stone Stanchions

We make our stanchions from recycled lumber or we can fabricate a High Density Poly Armor Stanchion to look like stacked stone, brick or stucco.

Sky is the limit and we provide it all in house from design concept, to finalized proofs, production and delivery.

*Installation is available upon request!*

# Recycled Lumber Stanchions

Our stanchions have a variety of finial tops, leather or metal strapping, custom installation of ball washers or trash receptacle brackets!

**Royal Palm Golf Club, Naples, FL**

*Thanks to Tom Eubank and Golf Sign Company for providing such a nice product at great pricing. They were able to package a variety of products we needed to ensure a successful grand re-opening for our members. Very happy with all the new amenities and their service.*

**Rick A. Neet, PGA Director of Golf**

# Ball Washers

Ball washers have typically only been available in red, green or black and they advertise the company you purchased from. Why not brand your own logo on each ball washer and have a variety of colors to choose from and not just the "Old Three" colors?

*Call to see how reasonable a custom ball washer with logo can be!*

Gloss colors are available as shown above or in any custom color you desire.

Antique Bronze Copper Vein Texture Black  
Specialty Colors above are an up-charge and have minimum order requirements.

***Call now for a free quote and mock up for your course and make your ball washers an outstanding centerpiece for your golf course today!***

# Accessories

Ball washer brackets - Fitted for flat surfaces or for 3" round posts.

We can paint the bracket to match your ball washers as well with both standard and Specialty colors.

***Black are in stock for immediate shipping!***

# Putting Green - Pin Toppers

Toppers fit on your putting green pins from either Standard Golf or Par Aide. We can even do custom threading if you have another brand of pin flag.

They are available in bronze, aluminum and face painted aluminum.

Any shape is available for a custom order with minimum order requirements .

# Tee Box Yardage Markers

# Fairway Yardage Markers

Cast Yardage Markers are essential for your course to mark the location of your tee boxes, give information to the golfers, and keep play moving quickly.

From tee boxes, fairways to cart paths we can mark your entire course with classic markers that last forever.

Call now for a quote and of course we include free mock ups.

# Custom Tee Markers

Custom does not have to mean expensive.....

We can create an entirely new pattern for your markers to make your tee markers both unique and attractive. And the majority of the time they price out well below your expectations.

We love to hear... "It can't be done". Several competitors said that about the Fiddlesticks Bagpiper to the left, but we did it!

# Residential Signs

Due to our volume we can offer you prices that your local vendor can't even come close on.

Consider: Family run and operated - Low overhead and in house design team. Couple that with our own post manufacturing and bracket work and you have a recipe for great pricing and un-matched service.

We have done full communities all over the USA and even in Russia and North Africa. We even install everywhere on the East Coast of the USA. Call today for a free proposal!

Logo medallions, custom brackets??? No Problem.

# Community Solutions

Solar Lighting in commercial grade available for any post set up.

# Residential Signs

Why not have all the signs on your course and community have continuity giving your community a touch of class.

We specialize in both custom signage and DOT approved signage for all 50 states.

Let our experts work with you to create the perfect package for your course.

18" x 24" Frames    24" Stop Sign Frames

30" x 6" Street Sign Frames  
*All three frames are in stock!*

# Community Solutions

If your street signs in the community are old and tired or perhaps your directional signs around the community don't match or are multi-colored; you are missing out on a great first impression.

Welcome to the 95% club. Most courses do not have continuity through the whole community but you can and you should. We work with your HOA or club manager to ensure a great fit for all areas of the community and NOT just the golf side.

We do indoor signs, cantilever signs, pool and recreation signs as well. Let us design a look and a package for your entire community that you will be proud of for years to come.

# Driving Range Signs

Cast Metal movable signs.

Easel Signs.

Custom signs like the divot pattern sign or driving range sign with changeable numbers are all available in our recycle lumber signs.

Sky is the limit and we will customize it to fit your needs.

**Bronze or Aluminum**  
In ground cast metal range signs are a perfect fit for the club that wants exact yardage from various points on the range. Bronze or aluminum available in any size you need.

# Custom High Pressure Laminate

What is it? And is it durable?

The sign is printed on special paper that is then fused to high density Kraft paper that is filled with resin. Then there is a balance backer added for strength and a clean finish on the back of the sign. Then a UV overlay is added and it is all pressed at 325 degrees with the end result being a solid thermo-set piece.

In English: A full color sign that is hard as a rock and almost impossible to damage. But the best part?

**CAN YOU SAY 10-YEAR WARRANTY?  
YES, 10 YEARS FOLKS!**

Course Map Signs up to 4' x 10' in size.

# Resin Core Signs

## Direction Signs on page to left:

Comes with 2 stainless steel spikes.

White on green or green on white are standard and in stock colors in size 6" x 12".

Other sizes, shapes and configurations are available.

**Resin Core** makes for a very durable option to keep costs down and have a great looking sign. We can add our message sleeves so you can change out messages daily.

Sign options are limitless and even classic posts with yardages engraved in may be a great option for your course.

*Call or email today for a free quote!*

# Bag Racks

**MEDALIST GOLF CLUB, Hobe Sound, FL** - "I am honored to have this opportunity to write this testimonial on behalf of Tom Eubank and his Golf Sign Company. I have known Tom for many years and he is the true definition of a Golf Guy. His knowledge of the game and his understanding of the needs of Golf Professionals is the best in our game. Whether it's yardage plates, scorecards, or yardage books, he and his company have provided us with the highest quality and service I've ever experienced. Tom takes the time to personally be on sight to handle every detail. He definitely makes our job so much easier because of his caring personality and professionalism. I am a big fan of Tom and his company."

Thanks Tom and all the best,

**BUDDY ANTONOPOULIS**  
Director of Golf

# Beverage Stations

Sea Island was looking for a custom beverage station that did not exist. We designed a unit that would fit all their requirements and at thousands below the big box vendors were offering it.

We can customize any beverage station to fit both your needs and your existing equipment like ice and water machines. Why not have something unique and functional at your course?

Above and below have built in ice chests, water coolers, trash receptacles, cup dispensers, lid and straw dispensers.

Throw in custom drawers, magnetic doors that close tight and lockable hasps and you have a great beverage station to fit any need.

*We first made contact with Golf Sign and Design and Tom Eubank at the 2019 PGA of America Merchandise Show. Tom was very helpful in showing his product and gave us some ideas for our renovation project. In May we started a full renovation of our course and Tom visited to show us the different products in detail that he produces. We elected to go with his full product line of signage, beverage stations, range stands, sprinkler yardage plates and new yardage book. Everything turned out great and Tom was wonderful to work with during the whole process. I would highly recommend Tom Eubank and Golf Sign and Design to anyone wanting top quality products for their course at a great package price.*

# Ultra 3D Yardage Books

No one compares a Porsche to a KIA so why are you comparing cheap graphics to the number one yardage book graphics in the world? Let's face it. Your members want and expect quality and beauty. Just because a company is big does not mean they have either.

At Golf Sign and Design our clients don't even compare our pricing because they already know we are extremely reasonable for the number one 3D graphics in the world. They know they are getting a quality that cannot be found anywhere else. If you want great quality and service please give us a call.

- Old fashioned laser measuring - the most accurate on earth!
- Tom measures almost all jobs personally...YES, the owner does the hard work on-site!
- Tom oversees graphic production of EVERY yardage guide and web graphic job!
- We don't buzz through your course in a day. We spend on average 20-30 hours mapping.
- Our jobs are delivered on time every time.... guaranteed!

# Incredible Graphics (for books or website)

**TRUMP INTERNATIONAL GOLF CLUB IN WEST PALM BEACH  
HAS THE NUMBER ONE 3D GRAPHICS IN THE WORLD!**

## IN ADDITION TO THE BEST 3D GRAPHICS IN THE WORLD.....

We do all different types of yardage books to fit every golf course's needs.

- Ultra 3D Graphics are the best seller and our number one book.
- Photo Style Books are the best for marketing and high end clubs find it a favorite for their guests.
- Some "Old School" private clubs prefer our Tour Style Books, which our owner Tom Eubank produced for the Nationwide Tour for over 20 years.

*We even have quite a number of clubs that buy both Ultra 3D and Tour Style Books in a package.*

# Ultra 3D - Books, Web Site & Marketing

GlenRiddle hired Tom Eubank and the team at **Golf Sign and Design** to do our new 3D Yardage Guides and they exceeded our expectations. Their quality of graphics and attention to detail are second to none. One of the great benefits of using them is their diversity of products.

Thank you Golf Sign and Design and we look forward to working with you on many future projects together.

Scot Dailey  
Director of Golf  
GlenRiddle Golf Club

Achasta Golf Club, Dahlonega GA

Care to liven up your course?  
Why not consider Fall Colors to show off the beauty of your course each year as the leaves change color?

# Photo & Tour Style Books

## Best Souvenir Style Book Available

We offer our photo books with a brilliant photograph of each hole beside the Ultra 3D graphic image of the hole. The end result is a souvenir that your guests will be proud to own and display on their coffee table at home. There is no better marketing piece than a photo book and we can photograph your course or you can provide the photography all at great pricing.

"Golf Sign and Design are our GO-TO guys for signage and information!" "Tom with Golf Sign and Design flew over to us in LA and within a few days had our entire course mapped with measurements from thousands of sprinkler head's. We could not believe how fast and accurate everything was done!"

Travis Britt, PGA Professional - Hillcrest CC, Los Angeles

Tom Eubank utilized his days on the PGA Tour and his drafting skills to create one of the best and most functional Tour Books in the country. George Lucas, of PGA Tour fame, mentored Tom in his early days and shared some secrets for creating a book that the touring professionals will use and appreciate. Tom made the books for the Web.com tour for over 20 years and has done 3 major championships along with hundreds of major tour events on 5 different tours. Let Tom custom design a tour book that is functional & beautiful that fits your needs. We have worked on 5 continents doing awesome Yardage Books for our clients!

# Professional Photography

## Do We Still Need Professional Photographers?

Now more than ever is the simple answer. With cell phones and hand-held cameras getting better, the photography we see on most course websites is getting worse. Why? Everyone thinks they are a photographer.

Can anyone that owns a set of golf clubs maintain a course or teach golf? **I think not!** The PGA Professional and Superintendent are experts in their field. Photography is the same and requires a professional expert in **"Golf Course Photography."**

Tom Eubank has two things that amateurs don't have. That is a great eye for the best photo angles and an understanding of proper lighting on the golf hole; both critical elements.

We can also replace skies, clean up divots, remove unsightly ropes or rakes, fix brown spots and provide overall color enhancement to make your photos great.

After doing brilliant yardage guides for us, GlenRiddle hired Tom Eubank once again to provide a great package to do the photography for all of our 5 golf courses. We now have photos we are proud of and that make our course appealing to our prospective clients. One of his great benefits is that they don't charge license fees or royalties and their pricing was fantastic. Thank you Golf Sign and Design, **Scot Dailey, Director of Golf - GlenRiddle Golf Club**

**Great Photography** requires many things, but even great Photographers can't control weather conditions. Many days are less than optimal due to haze, humidity, no clouds in the sky (like below) or excessive clouds among other factors. It can be frustrating.

**The Good News?** With a great photo retouching lab we can take a ho-hum day and deliver SPECTACULAR!

Let us show you how you can get great photography without having to take out a mortgage on your country club.

## SERIOUSLY

10 years ago you had to spend \$8,000 plus expenses to get a decent photographer. Today, Tom Eubank at Golf Sign and Design bills himself as the **“best fair priced photographer in the world.”**

Bold? Maybe, but we deliver consistently great photos at prices far less than what most paid 10 years ago. We even offer packages starting at \$1795.

# Drone Photos & 4K Video

## Drone Photography and 4K Video

No, this is not your average drone. We shoot giant format photos and 4K video. But let's face it. All your members and many clubs buy drones. Why not use them or do it yourself? Glad you asked.

To this very day I have NEVER seen a members drone footage worth showing on the website. Golf courses make the biggest mistakes by not hiring a professional that can shoot photos in great light, have in-house photo touch-up, and we shoot video that far exceeds the quality you will get yourself.

When providing photography and video packages we shoot hundreds of shots from the drone and from a 50 MP DSLR on a ladder for the elevation needed to make photos great. With the combination of both styles you get amazing photography with a great variety for your website and marketing needs.

**Every hole on your course may not be great, but we can give you great photos for every hole!**

If your course is in good to great condition we can offer you amazing drone footage either in a composite video or as an individual hole by hole flyover for the course. Throw in professional voice over and license free music for a touch of class that will enhance your website viewer's experience.

# Animated Flyover Video

## Animated Flyover Video

Did you know we can create your golf holes from scratch and produce an animated flyover showing your course in flawless condition? Yes, and the price is far less than you may imagine, and especially when we are providing packages to the course.

The detail in the rock cliffs, ocean swells, even birds flying over is surreal. With the option to add music and voice over you will almost feel like you're playing the golf hole while you watch the video.

We even offer line of play imagery at no extra cost. Contact us today!

[www.golfsignanddesign.com](http://www.golfsignanddesign.com)

# Architects Corner

Architects are brilliant. They make incredible golf courses all over the world but they have one thing in common. Very few can create 3D imagery of the designs they are proposing to the client. It is just not their specialty, but it is our specialty at Golf Sign and Design.

We work with many architects to make their vision come to life. They show us their CAD drawing, share with us some of their design features and voile.... amazing 3D renderings.

*The end result is an amazing presentation!*

*"Tom's knowledge and understanding of the game of golf shows in the quality and artistry of his work. The projects he has done for us have turned out great."*

**RICKY NIX, Architect -Ron Garl Golf Design**

**KIPP SCHULTIES DESIGN, Jupiter, FL**

*Tom Eubank takes the concepts I create and puts them into a 3D format that I can present to my clients to show what the final design will look like. The details in the rock walls, trees and elevation movements are exceptional. They always meet their deadlines and have been very easy to work with.*

**KIPP SCHULTIES, Golf Course Architect**

# ARCHITECTS LOVE US - WE MAKE THEIR VISION COME ALIVE

When PB Dye called me and asked how quick I could be in Maryland to drive through his new project and turn around 3D renderings for Links at Perry's Cabin, I said "As soon as you can book the flights."

We drove the dirt and he explained his vision, and 2 weeks later we had renderings for him to show the owner.

**Tom Eubank,**  
Owner,  
Golf Sign & Design

Golf Sign & Design takes the genius of the architect's concepts and brings them to life before it is even built. The end result is beautiful imagery that can be used in marketing or just to show the client what the course will look like when completed.

**P.B. DYE DESIGNS**

*The Dyes have had a great long-term relationship with Tom Eubank and his work. We look forward to working with him on all of our future projects.*

*He's The Best!*

**P.B. DYE, Architect**
